|---------------------|---|
| | <ol style="list-style-type: none"> 1. The Scheme shall endeavour to invest in instruments having credit rating as indicated above or higher. 2. In case instruments/securities as indicated above are not available or taking into account risk - reward analysis of instruments/securities, the Scheme may invest in Certificate of Deposits (CDs) having highest ratings/Triparty repo/Government Securities/Reverse Repo and Repo in Government Securities/T-bills. 3. All investment shall be made based on the rating prevalent at the time of investment. In case security is rated by more than one rating agency, the most conservative rating would be considered. In case of downgrades of an instrument, the Fund Manager shall endeavor to rebalance the portfolio on a best effort basis within 30 days. 4. The Scheme would not invest in unrated securities (except Triparty repo/Reverse Repo and Repo in Government Securities/Government Securities/T-bills). 5. In the event of any deviations from the ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of the said deviation. 6. Securities with rating AA shall include AA+ and AA-. 7. Further, the allocation may vary during the tenure of the Scheme. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event. In case of such deviations, the Scheme may invest in CDs of highest rating/ Triparty repo/Government Securities/Reverse Repo and Repo in Government Securities/T-Bills 8. At the time of building up the portfolio during the NFO or towards the maturity of the scheme, there may be higher allocation to cash or cash equivalents. <p>The rebalancing will be subject to market conditions and in the interest of the investors. If the fund manager for any reason is not able to rebalance the asset allocation within above mentioned period, the matter would be escalated to Investment Committee for further direction. The Investment Committee shall record the reason in writing leading the reason for falling the exposure outside the asset allocation / intended asset allocation and the Committee shall review and as consider necessary may further direct the manner for rebalancing the same within the range of the asset allocation as mentioned above.</p> <p>In the event of any deviation from the asset allocation table stated above and for the deviations specified at para 1,2,3,4,5,7 & 8 the Fund Manager shall review and rebalance the portfolio within 30 days from the date of such deviation.</p> |
| Investment Strategy | <p>The Scheme is a Close-ended Debt Scheme and the objective is to provide regular income and capital growth with limited interest rate risk to the investors through investments in a portfolio comprising of mix of fixed income securities maturing on or before the maturity of the scheme.</p> <p>Investments under the scheme would be made only in securities which mature on or before the date of the maturity of the Scheme. The scheme has the flexibility to invest in the entire range of debt instruments and would seek to minimise interest rate risk while avoiding credit risks. The issuer selection for credit exposure would be based on financial parameters such as Turnover, Net Worth, Gearing, Interest Coverage Ratio and Profitability track record. Companies in the investment universe are initially screened on the basis of Management quality, Business and Industry analysis & Feedback from creditors/ Rating agencies. Companies which meet the initial screening norms are then evaluated on the financial norms for consideration in the investment. The scheme would make investment in securities in the investment universe based on market spreads and liquidity, so as to match the investment horizon with the scheme maturity. Investment in sovereign papers would be based on interest rate expectations arising out of macroeconomic analysis. This includes analysis of inflation data and trends in macro variables such as credit growth, liquidity, money supply growth, fiscal numbers and the global interest environment.</p> <p>Features differentiating among different Series of the Scheme are as follows:</p> <p>Liquidity: In normal market situation, short term papers have very high liquidity compared to long term papers.</p> <p>Yield to Maturity: In normal market conditions, the yield of the portfolio constructed with shorter term papers will be lower than longer term papers.</p> <p>Yield Curve: Yield to maturity for certain term to maturities may be higher or lower depending upon the prevalent market conditions.</p> |

| | |
|-----------------------------------|---|
| | <p>Purchasing Power: The relative activeness of the scheme will also change with the inflation expectations for the term to maturity of that scheme.</p> <p>Credit Quality: The credit quality of debt instruments vary under changing market conditions and firm specific growth and stability factors. The scheme launched at different times may bear different credit risk and hence generate unequal returns.</p> |
| Risk Profile of the Scheme | <p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:</p> <ol style="list-style-type: none"> Risk associated with investing in securitised debt: Investment in securitised debt is subject to liquidity risk, limited recourse, Delinquency & Credit Risk, Risks due to possible prepayments, risk due to bankruptcy of the Originator or Seller etc. Risk associated with Close Ended Scheme: In a close ended scheme, redemption / repurchase shall not be allowed prior to maturity of the Scheme. Redemption will be allowed only on maturity of the Scheme. Scheme will mature at the end of the close ended period. For liquidity purpose units of the scheme are to be listed on Stock Exchange. Investors who wish to trade on the exchange and Investors wishing to exit / redeem before the scheduled maturity may do so through stock exchange mode where the scheme will be listed. For the units listed on the exchange it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units and investor may not get the desired return. Also there may not be sufficient liquidity on the stock exchange for the investors to exit from the stock exchange mode. Risk factors associated with repo transactions in corporate debt securities: Corporate Bond Repo transactions are currently done on OTC basis and settled on non guaranteed basis. Credit risks would arise if the counter party fails to repurchase the security as contracted. This risk is largely mitigated, as the choice of counterparties is largely restricted and also haircuts are applicable on the underlying bonds depending on credit ratings. Also operational risks are lower as such trades are settled on a DVP basis. In the event of the scheme being unable to pay back the money to the counterparty as contracted in case of transactions as a borrower, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the Mutual Fund. Thus, the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments. Debt & money market securities investments under the scheme may also be subject to Credit risk, Liquidity Risk, Interest Rate risk & Reinvestment risk. Risk factors associated with Trading in Derivatives: Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities: Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer. Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the |

| | |
|---------------------|--|
| | <p>liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.</p> <p>Credit Risk: The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.</p> <p>g. Risks associated with segregated portfolio :</p> <p>Different types of securities in which the scheme would invest carry different levels and types of risk as given in the Scheme Information Document of the scheme. In addition to the same, unitholders are requested to also note the following risks with respect to Segregated Portfolio:</p> <ol style="list-style-type: none"> 1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time there is recovery of money from the issuer. 2. Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity, as there may not be active trading of units in the stock market. Further trading price of units on the stock market may be at a significant discount compared to the prevailing NAV. 3. Securities which are part of the segregated portfolio may or may not recover any money, either fully or partially. |
| Risk Control | <p>Investments in debt and money market securities carry various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification. In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market. Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigants.</p> <p>For risk control, the following may be noted:</p> <p>Liquidity risks:</p> <p>The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.</p> <p>Interest Rate Risk:</p> <p>Changes in interest rates affect the prices of bonds. If interest rates rise the prices of bonds fall and vice versa. A well-diversified portfolio may help to mitigate this risk. Additionally, the Scheme will invest in securities maturing on or before the maturity of the Scheme. Hence, while the interim NAV will fluctuate in response to changes in interest rates, the final NAV will be more stable. To that extent the interest rate risk will be mitigated at the maturity of the scheme.</p> <p>Volatility risks:</p> <p>There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification. Further, the Scheme will invest in a basket of debt and money market securities maturing on or before maturity of the Scheme with a view to hold them till the maturity of the Scheme. To that extent the Volatility risk will be mitigated in the scheme.</p> <p>Credit Risks</p> <p>Credit risk shall be mitigated by investing in rated papers of the companies having the sound back ground, strong fundamentals, and quality of management and financial strength of the Company.</p> |

| Credit Evaluation Policy | <p>Credit Analysis is a bottom up approach starting with looking at each individual issuer, industry, terms and covenants of a particular issue, etc. Individual issuer level exposures are taken only after approval from investment committee, i.e. issuer becoming part of “Accepted Credit Universe”. A team of credit analyst will do a detailed analysis and prepare an initiation note to introduce an issuer to the universe.</p> <p>For every issuer we focus on 4 Cs of credit - Capacity, Character, Collateral & Covenants</p> <p>Key focus areas are:</p> <p>Management Quality, Financial Analysis, Business Analysis, Industry Analysis, Regulatory Environment, Feedback from Creditors, Other Issues; auditor report and qualifications, etc</p> <p>Regular management interaction at various levels, supported by plant visits, interaction with rating agencies is part of the process.</p> <p>Once a credit limit is set, it is regularly monitored based on internal Tier classification.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--------------------------|---|--------------------------------|---------------------------------------|--------------------------------|-----------------------------|---|---------------|---------------|-------------|---|---------------|--------|-------------|---|---------------|---------|-------------|---|-----------|--------|-------------|---|--------|---------------|-------------|---|--------|---------|-------------|---|-----------|---------|--------------|---|-----------|---------------|--------------|
| Plans & Options | <p>The scheme would have two plans viz. Direct Plan & Regular Plan.</p> <p>Direct Plan:</p> <p>Direct Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund or through Registered Investment Advisor (RIA) and is not available for investors who route their investments through a Distributor. All the features of the Direct Plan under Scheme like the investment objective, asset allocation pattern, investment strategy, risk factors, facilities offered, load structure etc. will be the same except for a lower expense ratio as detailed in Section IV - Fees and Expenses - B. - Annual Recurring Expenses of the SID. Brokerage/Commission paid to distributors will not be paid / charged under the Direct Plan. Both the plans shall have a common portfolio.</p> <p>Eligible investors: All categories of investors as permitted under the Scheme Information Document of the Scheme are eligible to subscribe under Direct Plan.</p> <p>Modes for applying: Investments under Direct Plan can be made through various modes offered by the Mutual Fund for investing directly with the Mutual Fund.</p> <p>How to apply:</p> <ul style="list-style-type: none">Investors desirous of subscribing under Direct Plan of a Scheme will have to ensure to indicate “Direct Plan” against the Scheme name in the application form.Investors should also indicate “Direct” in the ARN column of the application form <p>Regular Plan</p> <p>This Plan is for investors who wish to route their investment through any distributor.</p> <p>The default plan in following cases will be:</p> <table><tr><th>Scenario</th><th>Broker Code mentioned by the investor</th><th>Plan mentioned by the investor</th><th>Default Plan to be captured</th></tr><tr><td>1</td><td>Not mentioned</td><td>Not mentioned</td><td>Direct Plan</td></tr><tr><td>2</td><td>Not mentioned</td><td>Direct</td><td>Direct Plan</td></tr><tr><td>3</td><td>Not mentioned</td><td>Regular</td><td>Direct Plan</td></tr><tr><td>4</td><td>Mentioned</td><td>Direct</td><td>Direct Plan</td></tr><tr><td>5</td><td>Direct</td><td>Not Mentioned</td><td>Direct Plan</td></tr><tr><td>6</td><td>Direct</td><td>Regular</td><td>Direct Plan</td></tr><tr><td>7</td><td>Mentioned</td><td>Regular</td><td>Regular Plan</td></tr><tr><td>8</td><td>Mentioned</td><td>Not Mentioned</td><td>Regular Plan</td></tr></table> <p>In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the application shall be processed under Regular Plan. IDCW will have the facility of Payout of Income Distribution cum capital withdrawal option (IDCW Payout) & Transfer of Income Distribution cum capital withdrawal plan (IDCW Transfer). Both Growth and IDCW option will be available under the Scheme. The IDCW option would endeavor to declare IDCW subject to the availability of distributable surplus and, on the recommendation of the AMC, subject to the approval of the Trustees. The Growth option would not declare IDCW and returns in this option would be through capital appreciation only. Investor may please note that IDCW Transfer is an additional facility being provided under the IDCW sub - option and this facility would only available for NFO investors. The Growth Option will be the default option & IDCW payout will be default facility and hence if an investor fails to specify the option applied for, he will be allocated Units under the Growth Option of the Scheme and if investor opts for IDCW option & fails to tick either IDCW payout or IDCW transfer, IDCW payout will be the default option.</p> | Scenario | Broker Code mentioned by the investor | Plan mentioned by the investor | Default Plan to be captured | 1 | Not mentioned | Not mentioned | Direct Plan | 2 | Not mentioned | Direct | Direct Plan | 3 | Not mentioned | Regular | Direct Plan | 4 | Mentioned | Direct | Direct Plan | 5 | Direct | Not Mentioned | Direct Plan | 6 | Direct | Regular | Direct Plan | 7 | Mentioned | Regular | Regular Plan | 8 | Mentioned | Not Mentioned | Regular Plan |

26. Transaction Charges

In accordance with the terms of the SEBI Circular No. Cir/ IMD/ DF/13/ 2011 dated August 22, 2011, SEBI has allowed Asset Management Companies (AMCs) to deduct transaction charges per subscription of Rs. 10,000/- and above.

Distributors shall be able to choose to opt out of charging the transaction charge. However, the 'opt-out' shall be at distributor level and not investor level i.e. a distributor shall not charge one investor and choose not to charge another investor. As per SEBI Circular CIR/IMD/DF/21/2012 dated September 13, 2012, distributors shall have also the option to either opt in or opt out of levying transaction charge based on type of the product

Accordingly, the Fund shall deduct Transaction Charges on purchase / subscription received from first time mutual fund investors and investors other than first time mutual fund investors through a distributor/agent (**who have specifically “opted in” to receive the transaction charges**) as under:

(i) First Time Mutual Fund Investor (across Mutual Funds):

Transaction charges of Rs. 150/- for subscription of Rs. 10,000/- and above will be deducted from the subscription amount and paid to the distributor/agent of the first time investor and the balance amount shall be invested in the relevant scheme opted by the investor.

(ii) Investor other than First Time Mutual Fund Investor:

Transaction charges of Rs. 100/- per subscription of Rs. 10,000/- and above will be deducted from the subscription amount and paid to the distributor/agent of the investor and the balance amount shall be invested in the relevant scheme opted by the investor.

(iii) Transaction charges shall not be deducted for:

- (a) purchases /subscriptions for an amount less than Rs. 10,000/-;

 - (c) purchases /subscriptions made directly with the Fund without any ARN code (i.e. not routed through any distributor/ agent).
 - (d) purchases / subscriptions routed through Stock Exchange(s) through Stock Brokers.
27. By investing in the Scheme, the investor authorizes the AMC to share all sensitive personal data / information collected from the investors with its Registrar and Transfer Agents (“RTA”) or with any other third party engaged by the AMC / RTA for the purpose of processing / storage etc. The AMC also authorizes the RTA to collect all such sensitive personal data / information on behalf of the AMC, through any mode of communication either directly from investors or through their distributors or through any other third party engaged by the AMC / RTA. Further, the RTA is entitled to retain all such sensitive personal data / information collected from the investors and distributors or any other third party service providers on a permanent basis for the purpose of authenticating the investor’s / distributor’s identity.
28. Employee Unique Identification Number (EUID): SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of mutual fund products to quote the EUID obtained by him/her from AMFI in the Application Form. EUID, particularly in advisory transactions, would assist in addressing any instance of mis-selling even if the employee/ relationship manager/sales person later leaves the employment of the distributor. Individual ARN holders including senior citizens distributing mutual fund products are also required to obtain and quote EUID in the Application Form. Hence, if your investments are routed through a distributor please ensure that the EUID is correctly filled up in the Application Form. However, if your distributor has not given you any advice pertaining to the investment, the EUID box may be left blank. In this case, you are required to provide a duly signed declaration to this effect, as given in the Form.
29. New cadre distributors: SEBI has introduced a new cadre of distributors such as postal agents; retired government and semi-government officials (class III and above or equivalent), retired teachers and retired bank officers (all such retired persons with at least 10 years of service) and other similar persons (such as Bank correspondents) as may be notified by AMFI/AMC from time to time. Such New Cadre distributor can sell only ‘simple and performing’ diversified equity schemes, index funds and fixed maturity plans. There is a pre-fix of “SD” before the ARN number of such distributors. They also hold an EUID which must be quoted in the application form. In case your application for subscription through such distributor is not for an eligible scheme, it is liable to be rejected.
30. **APPLICATION VIA ELECTRONIC MODE:**
- SBIFML/SBIMF/Registrar to the scheme(s) (hereinafter referred to as ‘Recipient’) may accept certain transactions through one or more electronic mode such as facsimile, web or through any other electronic manner (hereinafter referred to as ‘electronic transaction’) from time to time, subject to the investor fulfilling terms and conditions stipulated as under:

In relevant cases, information will have to be reported to tax authorities/ appointed agencies. Towards compliance, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto.
